# Fishbowl Solutions Oracle WebCenter Content Admin Suite

**User-Friendly, Web-Based Tools for  
Oracle WebCenter Administrators**

## Overwhelmed by User Frustration, Decreased Adoption, and Inefficiencies?

Oracle WebCenter system administrators and super users often find themselves performing the same tasks many times or tasks that take many steps with out-of-the-box administrative tools. Without the tools to you need to make managing WebCenter easier, you experience task lag, inconvenient controls, and security risks, which leads to a non-optimized WebCenter system and decreased ROI.

## Fishbowl's Admin Suite Can Help!

Fishbowl's WebCenter Administrator Suite combines user-friendly and-web based administrative and reporting tools for Oracle WebCenter administrators. These tools greatly simplify and streamline common administrative tasks such as Identity Management, Workflow creation, searching, & reporting, user and system messaging, error log notifications, and dynamic option list filtering. Fishbowl's Admin Suite features some of our most popular administrative components for Oracle WebCenter Content.
