Fishbowl's Oracle WebCenter Consulting Services

Your Enterprise Content Management and Portal Experts!

Fishbowl Solutions offers solutions for Oracle WebCenter (formerly Enterprise Content Management and Oracle WebCenter) providing consulting services, custom components and engineering expertise. Fishbowl has been implementing content management, enterprise portals and related technology solutions since 1999 serving a wide range of industries including manufacturing, government, healthcare and financial services.

Depth and Breadth of Knowledge

Fishbowl specializes in Oracle WebCenter, offering the deepest and broadest knowledge of all product features and components. Fishbowl consultants understand the internal workings of a content management and portal system, and can extend and optimize the system to best meet any organization's needs. Fishbowl's knowledge extends to all areas of Oracle WebCenter, including content management, portals, web content management, records management, capture, and imaging.

Consulting Flexibility

Are you worried about a long analysis process associated with consulting services? Fishbowl Solutions can provide the specific work based solely on your company's needs. From full implementations to small customizations, Fishbowl has the experience you need for success. Fishbowl offers, training, staff augmentation, support and system administration, full implementations and specific solutions based on customer needs.

Fishbowl Solutions' Consulting Advantage

Fishbowl Solutions not only offers consulting services for Oracle WebCenter, but also offers a unique suite of add-on-products. Through these value-add products, users can enhance ease-of-use, speed of configuration, and leverage Oracle technologies to their fullest capabilities.
