

Fishbowl Solutions Add-On Software for Oracle Products

Who We Are

Unlike traditional consulting firms who only deliver custom solutions, Fishbowl Solutions builds on over a decade of experience solving customer problems through a combination of services *and* packaged software. Fishbowl Solutions is an Oracle Specialized Gold Partner for both Oracle Enterprise Content Management (including UCM, IPM, and URM) and Oracle WebCenter. Our software solutions leverage the open, web-based Oracle ECM architecture to produce quick, predictable results. This includes technical support from our dedicated support staff, a documented and tested solution, feature enhancements, and upgrade support services for new versions of Oracle software.

ORACLE Gold Partner

Specialized
Oracle Enterprise Content Management

Specialized
Oracle WebCenter

GSA Connector

Get the power of Google Enterprise Search within Oracle UCM

- Search UCM and other repositories from one location
- View SiteStudio content as full-context web pages
- Search Multiple Content Servers
- Search using standard and custom metadata fields
- Search using full text, metadata, or both

SharePoint Connector

Maintain the SharePoint User Experience While Storing Content in UCM

- Update your content in SharePoint and store it in UCM
- Map SharePoint metadata to Oracle UCM metadata
- Maintain SharePoint user experience while improving site governance
- Ensure Success - Oracle Validated Integration™

iOS Mobility Suite API

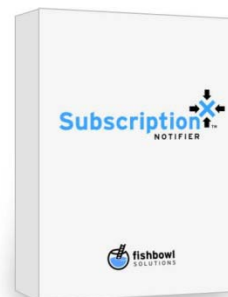

Oracle UCM On Your iPhone or iPad

- Access UCM content from your iPad or iPhone
- Approve and reject workflow on the go
- Push content updates to devices and automatically remove outdated content
- Maintain a secure content repository and consistent access to latest versions
- Store & Sync Local Content

Subscription Notifier™

Custom Content Email Notifications

- Email users or aliases when content needs review, has been updated, or is about to expire
- Custom email templates can contain action-driven instructions
- Trigger events such as metadata updates
- Track content by any business rule - not just expiration date

Policies and Procedures™

Sophisticated Workflow & Reporting with Simple Convenience

- Easy to use graphical interface for searching policies, procedures, and items needing review
- Automatically group related policy & procedure documents
- Schedule audits and reviews
- Automatic and triggered activity monitoring and notification
- Search workflow and easily escalate issues

Workflow Solution Set™

Simplify and Enhance Your Oracle UCM Workflows

- Streamline workflow implementations
- Enter comments on approval, not just rejection
- Present workflow options to users in a straightforward, easy-to-follow manner
- Easily search items in workflow and workflow history
- Simple, easy to use interface for column customization

Advanced User Security Mapping

Security Integration for Oracle UCM with LDAP, Active Directory, and Single Sign-On

- Create rules to map attributes, groups, and OUs to roles, accounts, and aliases
- Create rule exceptions to deny access
- Simulate user log-in to debug permission issues
- Synchronize and refresh users
- Works with single sign-on products

Portal Integration Suite™

Consolidate Architecture, Reduce Costs and Deliver a Rich User Experience

- Surface UCM content within your portal
- Support for WebCenter, WebSphere, & Liferay
- Consolidate your architecture
- Reduce IT Overhead
- Personalize Content
- Enable Single Sign-on
- Increase content and design reuse

Document Automation Suite

Automate Document Management Tasks for Improved Content and Metadata Consistency

- Extract information from native files to populate Oracle UCM Metadata
- Inject UCM Metadata, such as revision date, into native documents
- Reduce tedious "find/replace" activities
- Enable quick comparison of different versions of documents stored in UCM
- Ensure metadata between the native file and Oracle UCM is in synch

Enterprise BatchLoader™

Consolidate Enterprise Information and Batch Load Content to Oracle UCM

- Easily load content from other systems into UCM
- Ability to batchload content into workflow
- Map metadata from source system to UCM
- Create integrations with systems ERP systems like EBS, JDE & PeopleSoft
- Integrate enterprise business systems with Oracle UCM by consolidating the content from within those systems

Usability Tool

Admin Tool

Best Seller

New Product

Content Migrator™

Migrate UCM Content to New Servers Quickly and Efficiently

- Migrate content from one server to another
- Use queries to migrate selected groups of content
- Map metadata during migration
- View reports while processing a batch to see failed items and reasons for failure

CloudLoader™

Simple Tool End-User Bulk Contributions

- Provide a friendly, drag-and-drop interface for end-user bulk contributions
- Get content off local drives and into Oracle UCM
- Reduce the frustration of checking items in one-by-one

Duplicate File Checker™

Easily Remove And Prevent Duplicates

- Find and remove duplicate files from Oracle UCM
- Look for duplicates on Check In
- Detect duplicates through custom interface or standard UCM Check In screen

CollabPoint™

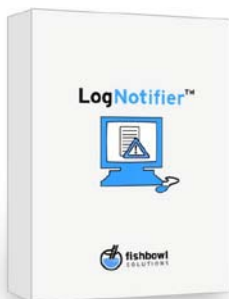

Quickly Create Collaborative Workspaces

- Simple interface for users to organize content
- Enables easy, light-weight project and team collaboration
- Workspaces contain widget for blogs, wikis, and announcements all backed by Oracle UCM

Log Notifier™

Automatic Email Notifications for Log Errors

- Receive automated email alerts when errors occur
- Empower administrators to be proactive, not reactive
- Improve user satisfaction by fixing problems before users even notice they exist

CADConverter™

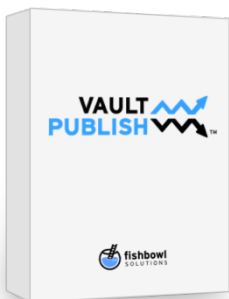

Convert AutoCAD Drawings Upon Check-In

- Deliver AutoCAD drawings to the entire business quickly and easily
- Allow engineers to focus on tasks and not outputting drawings for downstream use
- Save on printing and delivery costs

Vault Publish™

Publish from AutoCAD Vault to Oracle UCM

- Map metadata from titleblock and other drawings details to the Oracle UCM, better enabling search and retrieval of drawings
- Automatically publish viewables of AutoCAD drawings from Vault to Oracle Content Server
